

Are you people on drugs?? Crack maybe?? I expected to see the A list directors of R movies, or maybe the charming and radiant Paris Hilton herself on the list of FCC board members. If this business about the fcc approving the use of the f word is true, you all should be arrested. And why, do you ask, is America going to H-e-l-l in a handbasket? Kindergartens know the f word.

Get your heads out of the gutter and do something to better the world not sling "mud" everywhere!
